Benefits of Pet Companionship

- ❁ *Pets can help reduce stress and lower blood pressure.*

- ❁ *Pets give us a reason to get up in the morning; a sense of purpose... a responsibility to another individual.*
- ❁ *Pets offer us non-judgmental, unconditional love.*
- ❁ *Pets can be an instant conversation starter. What better way to invite social interaction than with a cute cat or dog?*
- ❁ *Pets have shown to be especially helpful in easing the pain and depression associated with many health problems because of their innate ability to positively affect our outlook on life.*
